

Risk	Risk statement	Response strategy	Objectives	Likelihood	Impact	Risk level
RSI	My wrists could be aching	Ensure I move wrists about	To keep my wrists safe for the future	Low	Low	1
Hardware failure	My PC could crash and stop me from continuing the project on it	Make sure I keep my remote repo up to date and switch to my laptop to continue working	Not taking actions likely to cause PC to crash	Low	Low	1
Falling ill	I could fall ill while doing the project	Depending on the severity I could just take more regular breaks or go to a GP	To avoid falling ill	Low	Medium	4
Coding issues	I could have problems with the IDE	Double checking my work and keeping the dependencies up to date	Follow the best coding practices to minimise mistakes.	Medium	Medium	4
Not finishing	Not having enough time to implement all of the desired features into the project	Plan ahead to to make sure some progress is made on all desired features	Avoiding not adding all desired features	Low	high	7
Low productivity	I could have issues staying focused or procrastinate	Try not to do too much everyday so I don't get burned out and take breaks every once in a while to walk around	Stopping myself from losing focused and not getting enough done.	Low	Medium	4
Power outage	I could lose power	Take my laptop with me to a library so I still have internet access and can keep charging my laptop	Making sure I am still able to work if the power goes out	Low	Medium	4
Internet outage	I could lose internet access	Continue working on my laptop and find somewhere with WiFi such as a library and continue working.	Making sure I am still able to work if I lose internet access	Low	Medium	4
Documentation doesn't provide enough detail	The documentation I provide isn't clear enough in explaining what I am trying to achieve	Double check all documentation files to make sure they are of a high standard	Maintain good documentation standards.	Low	Low	1

		Impact		
Likelihood	Low	1	4	7
	Medium	2	5	8
	High	3	6	9
